# Micropure Water Softeners

MicroPure is an extremely popular and reliable domestic water softener. A MicroPure water softener can be adjusted to the exact hardness level of the water in your local area, making it efficient and saving you money.

- Perfect for people looking for an introduction to soft water or for small households.
- A good value, reliable, domestic water softener – the technology used is tried and tested over 30+ years.
- The Micropure range has two different vessel capacities available. Suitable for 1-6 people.
- The small, compact design allows these water softeners to fit into most kitchen cabinets or small spaces.
- This reliable water softener range comes with a 2-year parts warranty.
